- b. to check that claims information matches what was provided when the insurance was taken out; and
- c. when required, to act as a basis for investigating claims when it is suspected that insurance fraud is being attempted.

The purpose of Insurance Link is to help insurers identify incorrect information and fraudulent claims and, therefore, to protect policyholders.

In certain cases, where an insurance company through Insurance Link identifies that a claimant has made a previous claim to another insurance company, the insurance companies may exchange additional information about the policy holder.
